

Empowering people of the future

2024 TRAINING CALENDAR

TÜV Rheinland Academy is your partner in fostering advanced educational structures and enhancing organizational capabilities. Our tailored programs are designed to elevate the skills, efficiency, and overall performance of your workforce, aligning with the strategic objectives of your business.

Our training services address immediate organizational needs, providing targeted skills and knowledge. In contrast, our consulting services focus on long-term strategic goals, facilitating sustainable growth and development within your organization.

At TÜV Rheinland, we are dedicated to effective knowledge transfer. Our team, composed of industry experts and seasoned trainers, delivers practical skills and insights, preparing executives and managers for the challenges of daily operations. We are your go-to source for inspection, testing, certification, and training needs, offering unparalleled expertise to give you a competitive edge.

BENEFITS AT A GLANCE

For organizations:

- Enhanced efficiency and effectiveness in operations
- Increased productivity and profitability
- Improved product and service quality
- Elevated customer satisfaction
- Strengthened health and safety practices
- Higher employee retention rates
- Training standards that meet international benchmarks
- Flexible, responsive training program designs

For individuals:

- Development of new, job-specific skills
- Improved communication in both personal and professional realms
- Increased confidence in their abilities
- Strengthened trust in their organizations

TRAININGS BY TÜV RHEINLAND

INTRODUCTION TRAINING

Ideal for beginners, this course covers the fundamentals of management system implementation, emphasizing understanding of system concepts and requirements.

IMPLEMENTATION TRAINING

This advanced course builds on the basics, equipping participants with the tools for effective system implementation within their organizations.

INTERNAL AUDITOR TRAINING

Designed to provide the necessary skills and tools for conducting successful internal audits of management systems.

LEAD AUDITOR TRAINING

Focused on developing future auditors, this course imparts essential auditing skills and in-depth knowledge of management systems, accredited by CQI IRCA.

CONSULTING BY TÜV RHEINLAND

We assist clients in process optimization, innovative strategy development, and organizational restructuring. We provide comprehensive support in securing patents and financial aid, prioritizing cost transparency and efficiency. Our interdisciplinary team of experts is globally connected, incorporating contemporary industry insights to ensure the success of our clients across various sectors.

Our professional training programs cater to the evolving needs of modern businesses, covering everything from quality management to Industry 4.0 technologies. Tailored for various sectors, these courses equip professionals with key skills and knowledge, promoting growth and leadership through our commitment to excellence.

ISO 9001:2015 QUALITY MANAGEMENT SYSTEMS

This program provides comprehensive insights into ISO 9001:2015, a versatile standard applicable to both manufacturing and service industries. It helps organizations understand the standard's requirements, benefits, and impacts of implementing quality management systems.

ISO 14001:2015 ENVIRONMENTAL MANAGEMENT SYSTEMS

ISO 14001:2015 is designed for organizations aiming to systematically manage their environmental responsibilities, aligning with their environmental policy and contributing to environmental sustainability.

ISO 45001:2018 HEALTH AND SAFETY MANAGEMENT SYSTEMS

Focusing on workplace health and safety, ISO 45001:2018 emphasizes preventive measures and management involvement to prevent work-related injuries and illnesses, enhancing overall occupational health and safety performance.

IATF 16949:2016 AUTOMOTIVE MANAGEMENT SYSTEM CERTIFICATION

Replacing ISO/TS 16949, IATF 16949:2016, published in October 2016, introduces new requirements for automotive quality management systems, with audits based on this standard as of October 2017.

ISO 50001:2018 ENERGY MANAGEMENT SYSTEMS

The ISO 50001:2018 standard outlines requirements and guidance for organizations to effectively develop, implement, maintain, and improve an energy management system.

INDUSTRY 4.0 - TRAINING, AND CONSULTING

This program addresses the challenges and opportunities of digitalization and technology development in businesses. It offers a systematic approach to streamlining processes, enhancing quality, and fostering innovation in the production chain.

LABORATORY TRAINING AND CONSULTING BASED ON ISO 17025:2017

This course assists in implementing the Quality Management System ISO/IEC 17025:2017, preparing for accreditation by the National Accreditation Committee (KAN).
