

Our aim to make lives safer needs firm principles.

Our Mission Statement.

WE

TÜV Rheinland is a leading international provider of technical services. Our goal is to be the world's best sustainable and independent provider of technical services for testing, inspection, certification, consultation, and training.

WE BEAR RESPONSIBILITY

Since 1872, we have been developing solutions to ensure the safety and quality of the interaction between man, technology, and the environment. We firmly believe that social and technological progress are intrinsically tied together.

WE BUILD TRUST

We support innovation and new developments in technology and business. We offer services that improve safety and quality. In this way we help make our customers more successful and also generate trust in products as well as processes across global value-adding chains and the flow of commodities. Our efforts in these areas lead to a higher quality of life.

WE ACTIVELY PRACTICE OUR VALUES

Integrity, excellence, customer orientation, performance, and agility characterize us. We are independent and professional, act with integrity and respect, take an entrepreneurial, results-driven approach, and are innovative as well as open to change. Every day, we actively practice our values globally, as a team, with our clients, and with the public. We continually strive to renew our customers' trust in us and increase our brand's reputation.
